

COUNTY OF TEHAMA

## Tehama County Air Pollution Control District

P.O. Box 1169 \* Red Bluff, CA 96080

JOSEPH H TONA  
Phone: 530-527-3717

AIR POLLUTION CONTROL OFFICER  
Fax: 530-527-0959

May 6, 2020

To Whom It May Concern:

Thank you for your interest in the Carl Moyer Program and/or the Funding Agricultural Replacement Measures for Emission Reductions (FARMER) Program. Please find enclosed an Application Packet from the Tehama County Air Pollution Control District. We are now accepting applications for Year 22 Carl Moyer funding, as well as Year 3 of the FARMER Program funding. The deadline to turn in an application is **September 30, 2020**. All applications mailed in **must** be postmarked no later than September 30<sup>th</sup>, 2020 in order to qualify for Year 22 and Year 3 funding. Submit your application to the Tehama County Air Pollution Control District by mail or hand delivery only. **NO FAXES OR EMAILS WILL BE ACCEPTED** or processed.

Projects that will be considered and/or eligible for funding are agricultural engine projects (i.e. tractors, forklifts, balers, agricultural pumps, etc.). Other projects such as on and off-road diesel projects (i.e. filters and/or replacements) and infrastructure (i.e. installation of fueling or energy infrastructure to fuel or power covered sources) may be considered also. In addition to agricultural engine projects the FARMER Program gives an applicant the opportunity to replace an agricultural UTV with a zero-emission UTV.

Projects will be ranked based on cost-effectiveness and will be funded starting with the most cost-effective to the least cost-effective until available funds are exhausted. The FARMER UTV replacement projects will be chosen on a first come, first serve basis until all UTV project allocated funds are exhausted.

A complete application packet received by the District must include the following:

- A **COMPLETE** Off-Road/On-Road Equipment Replacement or Repower Electrification Application. (Application is attached and **MUST** be signed by responsible party.)
- A **DETAILED** quote from your supplier for the new equipment. The quotation **MUST** include a description and specifications of the proposed new equipment including year, model, horsepower rating, ARB engine Family Number and Executive Order number, a list of included attachments and accessories, price quote, and **WARRANTY INFORMATION**.
- Proof of ownership—Applicant has owned the engine for at least two (2) years (i.e. bill of sale, tax depreciation, maintenance records, general ledger)
- Proof of annual usage—as stated on the Carl Moyer Year 22 Application (i.e. hour meter reading log, employee timesheets, repair work orders, preventative maintenance records)
- The Payroll Data Record (PDR) form included in this application packet. The County is required to send out 1099 forms to all participants in the Carl Moyer Program.

Completeness letters will be mailed out within five (5) working days upon receipt of each application. If anything from the above list is missing, applicants will have a total of two (2) weeks to submit missing

documents. If the appropriate information is not received prior to the two (2) week deadline, the application will be denied, and said applicant will have to reapply for funding.

Additional copies of the Carl Moyer/FARMER application forms are available at the District office or online at [www.tehcoapcd.net](http://www.tehcoapcd.net). If you wish to be removed from any future grant mailing lists or prefer other means of contact, please contact me so that I can update your contact preferences, and lastly, if you have any questions concerning the Carl Moyer Program or FARMER Program, please do not hesitate to give me a call at 530-527-3717 extension 103.

Sincerely,

*L. Mann*
